REF : 1477-CRPO dated 25 September 1951

1. Request that operational clearance on subject (as identified in reference dispatch) be granted with the utmost speed.

2. As described in 793-CRPO dated 11 June 1951, subject has been proposed by January 1, 1951 for the position of chief of the JMWAVE/BRUNN network to be attached to the LGFONK Apparat. Since the beginning of subject's training and thereby the training of his subordinates, all depend upon receiving clearance on subject and since on the other hand we have been asked to accelerate our efforts in the JMWAVE/BRUNN field with all possible speed. I most urgently request that top priority be given to subject's clearance and to be informed of such clearance by cable.
